THE MILL TO GRIND.

Corbett and Mitchell Fight Will Take Place.

A FINANCIAL FAILURE PREDICTED.

The Daval Club Members Determined to See the Contest Through Despite Their Loss-The Battle to Occur Out of Governor Mitchell's Jurisdiction. Railroad Arrangements.

JACKSONVILLE, Fla., Jan. 19 .- Corbett and Mitchell will meet and fight within 30 miles of Jacksonville next Thursday. The battle will not take place in this city. That is a certainty. The Duval athletic club has given up as futile the idea of calling the combatants together in the ring of its new arena here. The members claim that while Governor Mitchell's firm stand against the fight is illegal, unwarranted, presumptuous, arbitrary and what not, effectually disposes of all the chances of pulling off the mill where the thing ould be made a financial success in

Under the most advantageous cirumstances the receipts will not pay he liabilities incurred. It will have ast the corporation known as the Duval Athletic club \$36,000 to put Corbett, Mitchell and Referee Kelly in the ring ext Thursday. In fact, it has cost close to that much already. The purse for which "Honest" John Kelly now holds a certified check calls for \$20,000; \$5000 more was divided between the principals for training expenses and 1500 was expended on an arena which will never be used. Two thousand five hundred dollars has been paid out as atorney fees to five of Florida's constiutional lawyers. This would leave 1000 for incidental expenses, and will parely liquidate the item. The onus of tall is now being thrown on Bowden. It is claimed that he went at Governor Mitchell in approximately the same namer as Dominick O'Mally went at Governor Matthews of Indiana.

As matters now stand his associates have concluded to stand a loss and President Mason said to a representaive of the Associated Press that the oss, no matter what it may be, would be shared in equal parts by each five men who have monetary interests in he undertaking. "We shall fight the men," continued Mason, "and go down hour pockets and make up the differ- Colonel Frank A. Burr. ence between the receipts and disbursements and then attend to Governor Mitchell in a manner that will teach him that laws are not framed in the brains of arbitrary cranks."

It is admitted by the members of the dub that a piece of ground beyond the inisdiction of the state, county or city initials had been selected on which the battle is to take place, that a portable platform is now in course of construcion. A number of special trains, probbly four, of 10 coaches each, but with he privilege of engaging every bit of olling stock in the service has already een contracted for from a railroad ompany having Jacksonville as a erminus, President Mason alleges urther that an indemnifying bond of 50,000 has been filed by the railroad Ompany which is a party to the conract as a guarantee that no train not esignated by the club shall pass over he road before five hours after the last cial leaves Jacksonville for the bat-

There can be no doubt as to the sort ground the club has selected. There restrips in the territory adjacent to acksonville in which the prerogative f Governor Mitchell would be inperative. There are Indian reservaons near here on which the governor fould be powerless to interfere. Anasatia island, for instance, recognizes he authority of a United States mar-hal, and the seers predict that the in-ernational battle will take place not arfrom the cottages now being occu-ied by Mitchell for training purposes.
